Key Projects

- Krishi Drishti** | *AI + IoT Crop Residue Management Platform* 
- Built a scalable AI + IoT system using ML models and real-time data pipelines to monitor field machinery, improving operational efficiency by **70%**. Designed dashboards, predictive analytics modules, and end-to-end system architecture.
 - National Winner – Smart India Hackathon 2025.**
- NeuPath** | *AI-Powered Career Pathway Generator* 
- Developed a system generating personalised career roadmaps using LLMs and DAG-based skill progression algorithms.
 - Finalist – Artpark Codeforge Hackathon, IISc Bangalore.**
- TruthScope** | *AI-Powered Fake News Detection* 
- Built a real-time misinformation detection platform and Chrome extension using AI and NLP, achieving **98.6% accuracy**. Implemented claim extraction pipeline, deepfake detection, and SSE streaming.
 - 4th Place – Smart Bengal Hackathon 2025 Grand Finals.**
